Megan –

I recall this coming up sometime pre-furlough and touching base with Karen Marsh (OAQPS – NSPS OOOOa) and learned she's the EPA rep on that Air workgroup in STRONGER.

Yes, I am up (or 'down', as my kids would say) for reviewing the guidelines and providing comments for you. Let me know timing so I can check in with Scott P, and whereabouts I can access the document.

Hi, Cindy,

Are you aware that the STRONGER guidelines were proposed for public comment? I think it all went down while we were shutdown. Have you had a chance to look at it? Would you be up for both reviewing and then meeting to discuss?

Hi All,

As you know, the draft air quality guidelines have been out for a public comment period that was scheduled to end tomorrow. Now that the government is back open, EPA has requested an extension of the comment period until February 22. We will leave the draft open for comments from all stakeholders until that time. Here is a poll to schedule a call during the week of March 4 to review the comments, make any revisions, and approve the final draft for the Board:

I will send out a draft with all of the comments received in advance. Thanks for your patience and continuing participation on this effort.

Have a great weekend,
